MEMORANDUM FOR: COW

SUBJECT: Formal Establishment of Procurement Channels and Procedures with the United States Air Force

1. The subject of the undersigned's 15 August 1949 memorandum to you has been reopened by the Air Force through Colonel Grover's office. This subject is the requirement for setting up some sort of procedure for the handling of OPC-CIA requisitions made upon the Air Force for various types of equipment. Colonel Kelly of Colonel Grover's office specifically requested of the undersigned on 22 November 1949 that arrangements be made for a meeting with the supply people in CIA that will be involved in requisitioning materials to be used by OPC or for that part by CIA as a whole. The Air Force desires to meet with these persons in order that a thorough understanding of Air Force supply procedures be obtained by CIA persons and that formal arrangements be established to take care of the necessary accounting and financial aspects of items requisitioned by CIA from the Air Force. It is further desired in order that in the future supply matters between the Air Force and CIA will be dealt with by supply people and in order to insure the necessary follow-up of requisitions submitted by supply people. This, as you know, has not been the case in some instances to date and has occupied much time on the part of activities within the Air Force and within OPC, which were not intended to be supply agencies.

2. It is recommended that immediate action be taken to arrange a meeting between the desired persons in COs and CIA supply and the supply personnel designated by the Air Force in order that detailed agreements can be reached and procedures established for the future handling of OPC-CIA requisitions. The undersigned would be more than happy to arrange a suitable date with the interested Air Force offices for a meeting on this subject.
